Volvo	S80	All	3300
Volvo	V 70	All	3300
Volvo	XC 70	All	3970
Volvo	XC 90 4WD	All	4960

Note: Verify tow ratings by consulting your tow vehicle owner's manual and talking to your automotive and/or R.V. dealer. Transmission types and speeds, axle ratios, tow bar equipment, and trailer brake requirements should be researched and determined in detail before hitching up. These ratings represent the highest for the 2008-2009 models listed. For all other year models check vehicle owner's manual. Gross Vehicle weight ratings on the trailers should not be confused with the tow limitations of the towing vehicle. Many trailers will not be towed at their maximum axle rating and can be loaded in such a way as to accommodate maximum capacity of the tow vehicle.
